# What can training centres do in order to adapt to the needs of companies?

## To adapt the contents of the degrees to the needs of the company's productive sector

Adaptation of contents and training on Vocational Education and Training.

## Job board

To get qualified students who are looking for work in contact with job offers.

## Challenge launching

To allow companies to launch challenges so that training centres can find solutions.

## A flexible enrollment system so that working staff can start a training period

To complete a whole VET training cycle or a part of it.

## Advisory service for the recognition of professional experience

To advise workers on the most suitable training pathway for them to achieve their goals.

## Recognition of professional experience in the chosen degrees

To recognize academically the learning achieved through work experience.

## Entry tests for work education

To carry out VET entry tests on a group of company workers for them to access official qualifications.

## Reskilling of working staff

To train groups of workers to meet the needs of job prospects, promotion or reskilling. To provide training in order to obtain a professional certificate.

## Training adapted to the needs of the company

To train workers through areas of knowledge (training units) adapted to the training needs of the company.

## Professional guidance and mentoring service

To help define and update the knowledge maps that companies need to show the required skills and competencies.

## Creation of new degrees adapted to the needs of companies

To offer new initial VET programmes (PFI) adapted to the needs of companies.

# What can a company do for our students and teachers?

## WBL VET and International WBL VET

To incorporate students in work placements as apprentices with a scholarship or a contract issued by the company. The placements may also be located in other countries.

**mobilitatfp**

## Internships

To host students on obligatory unpaid internships in or outside Catalonia for around 400 hours.

## Training stays in companies for teachers

To host teachers for upskilling or training in the productive activity of companies.

## Collaboration for training in the workplace

To provide spaces and facilities for student training.

**flexxibilitzafp**

## Updating teacher and student training

To participate in professional updating actions for VET teachers and students.

## Collaboration in launching challenges or projects for students

To participate in challenge making for students to work on them in the classroom through a project. It is a company-school collaboration.
