1. OUR PROJECT

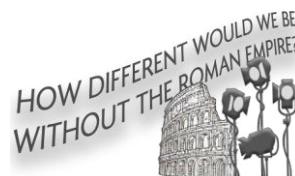

Introduction:

This project is thought to be done with 4th/5th level students. My group-class is compounded by 9 students.

I think this topic is very interesting; as understanding the past is a key element to understand the world we all live in nowadays. To be able to reflect about the heritage of the past, specially dealing with the Roman Empire, is always exciting and, at the same time, I knew that a excursion to Tarragona with my students was already scheduled at the beginning of the project, so it sounded like a very good chance to develop this project.

Driving question:

How different would we be without the Roman Empire?

Final product:

TV-show, lively recorded in Tarragona (taking profit of a “preset” school excursion to that city, extremely linked with the Roman Empire), dealing with the conclusions extracted from the driving question.

2.- Watch some (non-violent) extracts from “Gladiator”.

AT THE HEIGHT OF ITS POWER THE ROMAN EMPIRE
WAS VAST, STRETCHING FROM THE DESERTS OF AFRICA
TO THE BORDERS OF NORTHERN ENGLAND.

OVER ONE QUARTER OF THE WORLD'S POPULATION LIVED
AND DIED UNDER THE RULE OF THE CAESARS.

That was because the unique organization of Roman army. Order the following roles:

Captain - soldier - General - Emperor (Caesar)

THE COLOSSEO

The Colosseum was a gigantic amphitheater built during the Roman Empire in Rome, Italy. It's one of the most important monuments in human history. It had enough space for 75.000 people inside.

The Colosseum was used for gladiator fights. These fights tried to entertain people in Rome.

In these performances, gladiators fight each other to demonstrate their bravery against other gladiators, slaves, criminals but also... wild animals! Sometimes; lions, tigers or elephants were included in the shows!

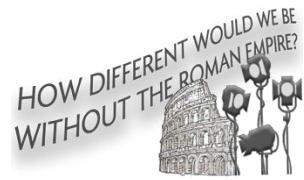

Nowadays, after many centuries, the Colosseum is in ruins but you can still visit it in Rome. Modern civilization doesn't like gladiator fighting anymore, but some fighters practice boxing. A fighting style with rules.

We do not build "Colosseos" anymore, but you now know that modern sport stadiums are based on the original "Colosseum".
