Activitat	<p>I participated in this project alongside the English teacher as part of an evaluation for the 6é students. They had to be evaluated at the end of February, so along with the teacher I helped plan and create some of the activities. The theme was creating a recipe and a video to accompany it. I created a basic introduction to the topic while including a cultural element from my country. I also made an example video to help guide the students. Lastly I produced a help sheet with all of the key points that were covered in the topic, including verbs, vocabulary and some tips and tricks to help their recipes and videos achieve the highest grade possible.</p> <p>In groups, the students had to pick a meal to make, then they proceeded to create a recipe sheet in a word document with the necessary steps and materials. Then, they had to write the dialogue for their video, which they later filmed with me in the classroom. After, they made the video, they edited it with music and effects, and submitted it for grading by the english teacher</p>			DURACIÓ	Approximately 1 month 1/2
